RELÈVE

EXECUTIVE STAFFING

THE RELÈVE APP

Put Relève on your phone and your computer.

It takes under a minute. Once it is on your Home Screen or Dock it opens like any other app, full screen, with notifications for new candidates, messages and anything that needs you.

iPhone or iPad

Safari. Six quick steps.

PAGES 2 AND 3

Mac

Safari or Chrome.

PAGES 4 AND 5

Android

Chrome. Three taps.

PAGE 6

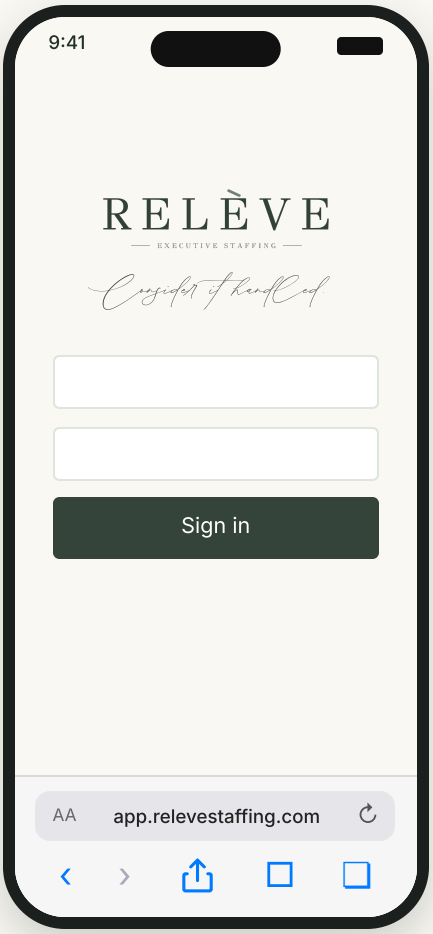

> **Good to know.** On an iPhone the app must be added from **Safari**, not Chrome or the in-app browser. Notifications only work once Relève has been added to the Home Screen and opened from there.

IPHONE AND IPAD

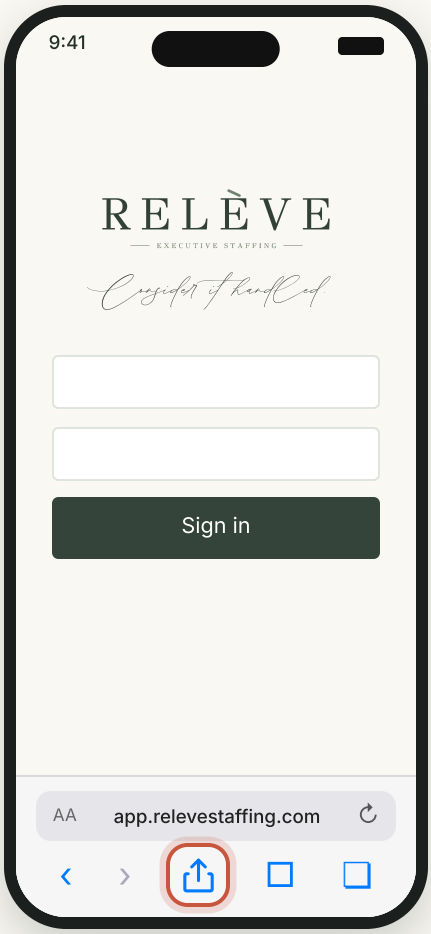

Add Relève to your Home Screen

Use Safari. Steps 1 to 3 of 6.

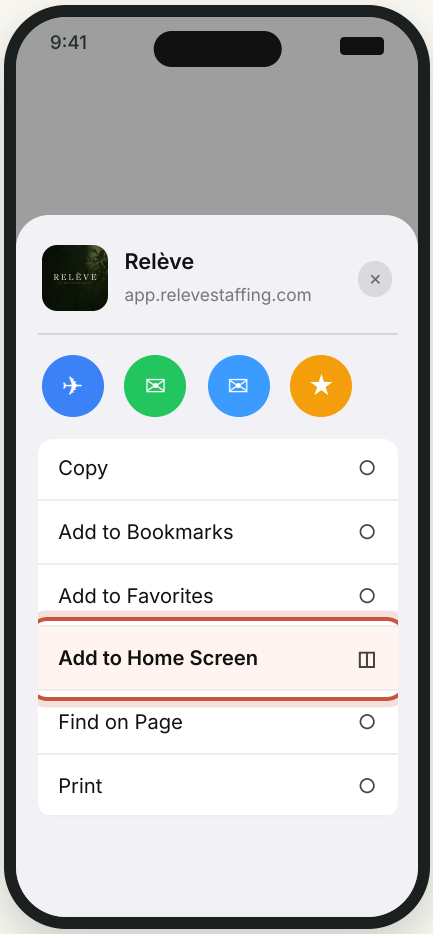

1 Open Relève in Safari

Go to **app.relevestaffing.com** and sign in. It has to be Safari, the blue compass app.

2 Tap the Share button

The square with an arrow pointing up, in the bar at the bottom of Safari.

3 Tap Add to Home Screen

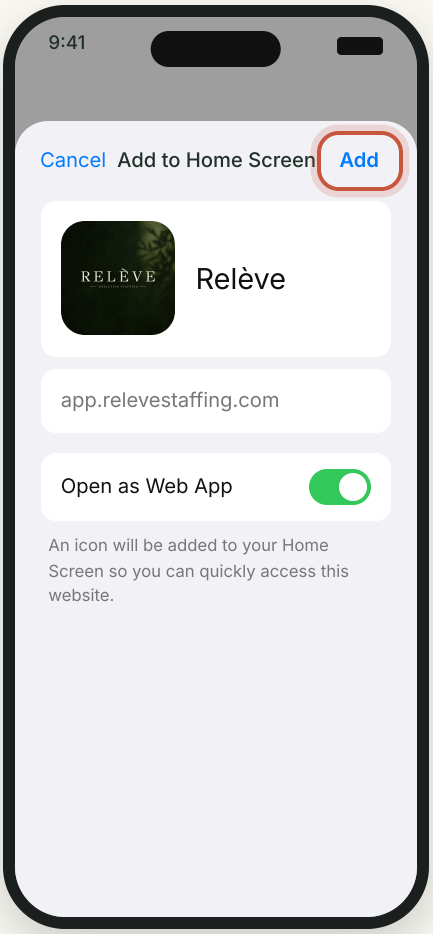

Scroll down the list if you cannot see it, then tap **Add to Home Screen**.

Illustrations of Safari on iPhone. Your screen may look slightly different on a different iOS version.

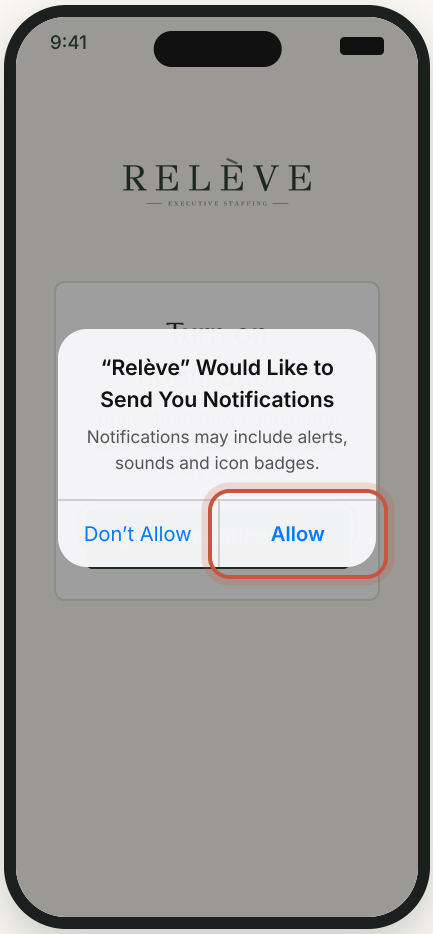

IPHONE AND IPAD

Open it and turn on notifications

Steps 4 to 6 of 6.

4 **Tap Add**

Leave **Open as Web App** switched on. Tap **Add** in the top right.

5 **Open Relève from your Home Screen**

Find the Relève icon and tap it. From now on, always open it from here.

6 **Tap Enable notifications, then Allow**

Inside the app, tap **Enable notifications**. When iPhone asks, tap **Allow**.

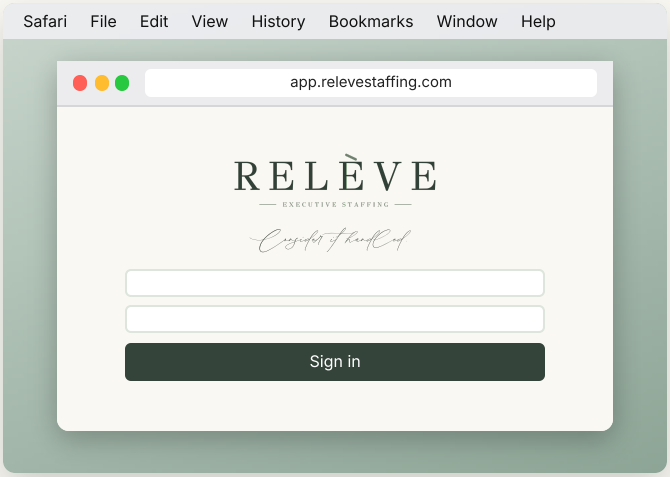

If something looks different

- **No Add to Home Screen?** You are probably in Chrome or inside another app. Copy the link and open it in Safari.
- **No Enable notifications button?** Close the Safari tab and open Relève from the Home Screen icon. The button only appears there.
- **Tapped Don't Allow by mistake?** Go to Settings, then Notifications, then Relève, and turn on Allow Notifications.

MAC · SAFARI

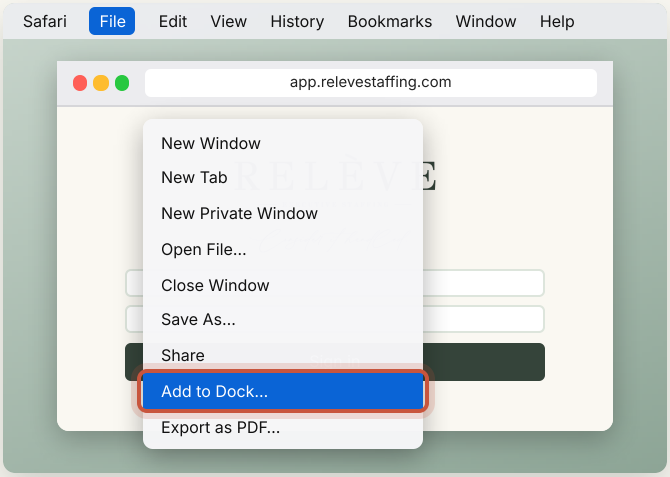

Add Relève to your Dock

Works on macOS Sonoma (14) and newer. Using Chrome? See the next page.

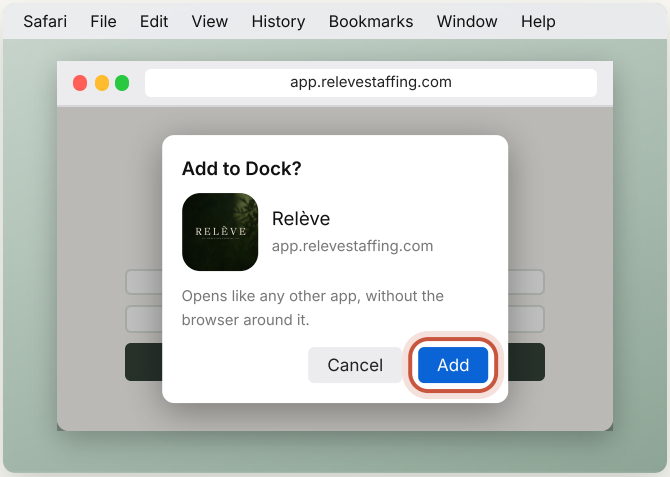

1 Open Relève in Safari

Go to **app.relevestaffing.com** and sign in.

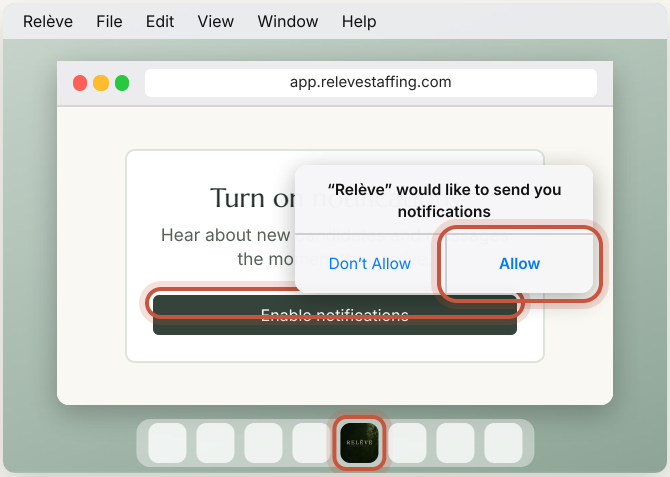

2 Choose File, then Add to Dock

In the menu bar at the top of your screen, click **File**, then **Add to Dock...**

3 Click Add

Keep the name Relève and click **Add**.

4 Open Relève from the Dock and click Enable notifications

Click the Relève icon in your Dock (or find it in Launchpad). Then click **Enable notifications** and **Allow**.

MAC · CHROME

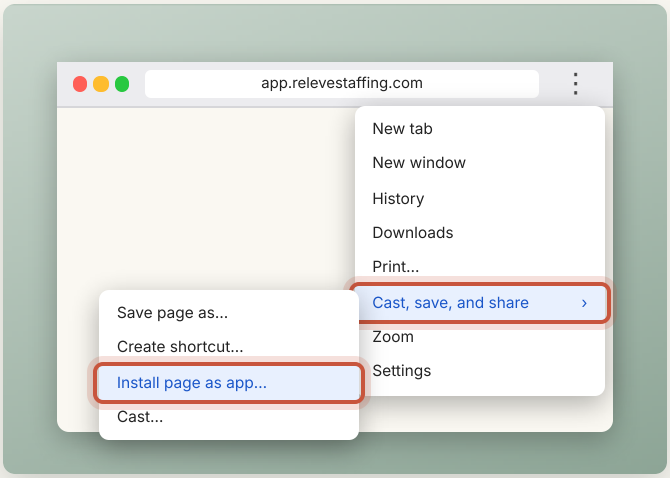

Install Relève as an app

Works in Google Chrome on Mac and Windows.

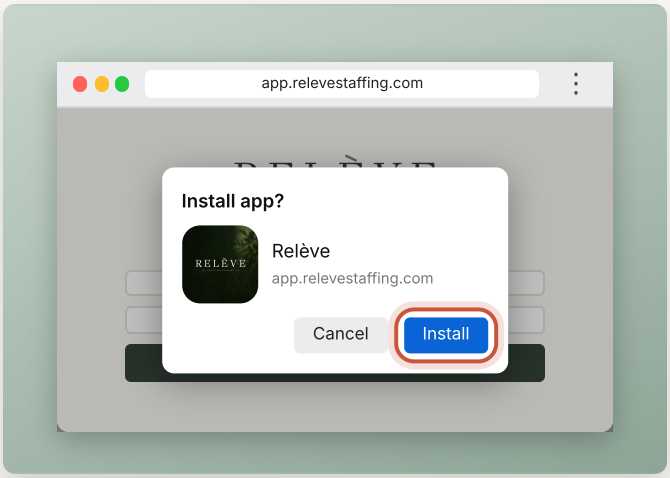

1 Open the Chrome menu

Open **app.relevestaffing.com**, sign in, then click the three dots at the top right of Chrome.

2 Cast, save, and share, then Install page as app

Click **Cast, save, and share**, then **Install page as app...**

3 Click Install

Click **Install**. Relève opens in its own window and stays in your Dock or taskbar. Then click **Enable notifications**.

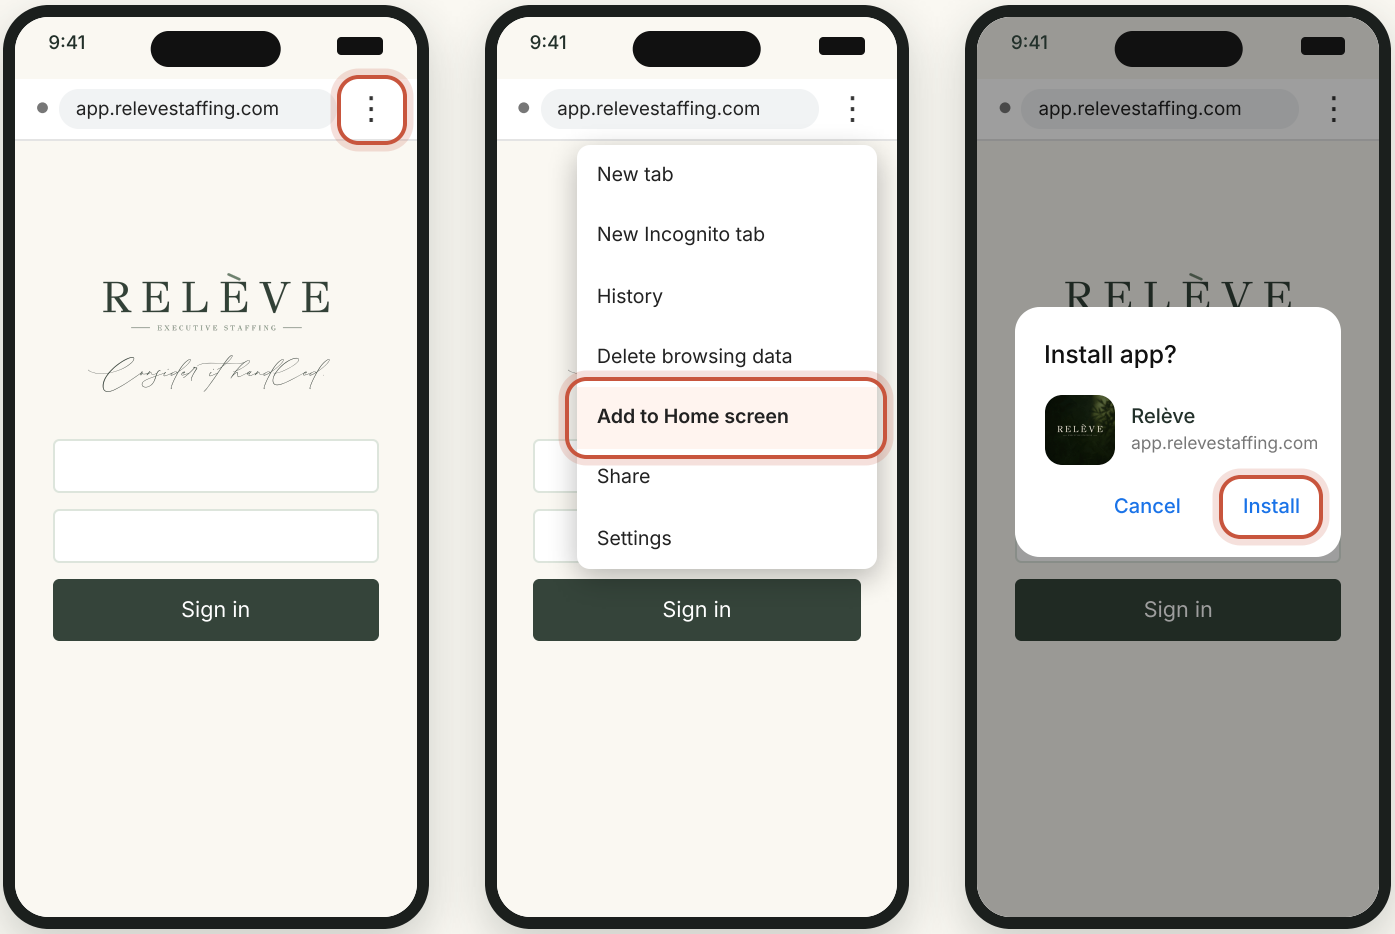

Shortcut

If you see a small install icon (a screen with a down arrow) at the right end of Chrome's address bar, click it, then click Install. It does the same thing.

ANDROID

Add Relève to your Home screen

Use Chrome. Three taps.

1 **Open Relève, then tap the three dots**

Go to **app.relevestaffing.com** in Chrome and sign in. Tap the three dots at the top right.

2 **Tap Add to Home screen**

In the menu, tap **Add to Home screen** (some phones say **Install app**).

3 **Tap Install**

Tap **Install**. Open Relève from its new icon, then tap **Enable notifications** and **Allow**.

Still stuck?

Email **hello@relevestaffing.com** with your phone model and we will walk you through it.
